No. SEIAA/GUJ/EC/3(b)/ /2008

Date:

Time Limit

To,
Lion Cement,
Plot No. 55, GIDC-Ranasan,
Mahudi-Vijapur Road,
Ta: Vijapur,
District: Mehsana.

Sub: Environment Clearance for cement manufacturing unit at Plot No. 55, GIDC-Ranasan, Mahudi-Vijapur Road, Ta: Vijapur, District: Mehsana by M/s. Lion Cement..... in Category 3 (b) of Schedule annexed with EIA Notification dated 14/9/2006.

Dear Sir,

This has reference to your application made along with Application Form-I and Rapid Environment Impact Assessment report submitted to MoEF, seeking Environmental Clearance under Environment Impact Assessment Notification, 2006. Later, SEAC had received this application from the Ministry of Environment & Forest, Government of India, after formation of the State Level Environment Impact Assessment Authority (SEIAA), Gujarat and the State Level Expert Appraisal Committee (SEAC), Gujarat.

The proposal is for Environmental Clearance for manufacturing Cement with a production of 50 Mt/day (which is less than 1.0 MT/ Annum production capacity) by M/s. Lion Cement, Plot No. 55, GIDC-Ranasan, Mahudi-Vijapur Road, Ta: Vijapur, District: Mehsana. Total land acquired for the purpose is 3600 sq. m. The proposed expansion will be within the existing land. The total cost of the project would be Rs. 80 Lacs.

The unit has proposed to install the air pollution control measures to control the air pollution likely to be generated from various trade activities as per the details furnished below :

Sr. No.	Section / Source	Type of APCM Proposed
1	Raw Mill	Bag filter
2	Cement Mill	Bag filter
3	Vertical Shaft Kiln	Wet Scrubber
4	Material Handling	Close Conveyor
5	Bagging	Close Automatic Machine

The project activity is covered in 3 (b) and is of 'B2' Category. Since the proposed project is in notified industrial area, it does not need Public Consultation as per Para 7(i) III. Stage (3) (b) – Public Consultation of EIA Notification, 2006.

The SEAC, Gujarat had recommended to the SEIAA, Gujarat, to grant the Environment Clearance to this project for the above-mentioned products. The proposal was considered by SEIAA, Gujarat in its meeting held on 22.09.2008 at Gandhinagar. Since the EIA/ EMP Report was found to be adequate and complete and the public consultation is not required for the project, the SEIAA hereby accords Environmental Clearance to above project under the provisions of EIA Notification dated 14th September, 2006 subject to the compliance of the following Specific and General conditions.:

A. SPECIFIC CONDITIONS:

A.1 WATER:

1. Water consumption for the project shall not exceed 2000 liter per day from bore well. A water meter shall be provided for the measurement of the consumption of the water and its logbook shall be maintained.
2. Necessary permission from the Central Ground Water Authority shall be obtained if applicable.
3. There shall not be any industrial wastewater discharge from the unit.
4. Domestic wastewater should be disposed off through septic tank and soak pit system as per GPCB norms.

A.2 AIR:

5. As per the guidelines of CPCB for VSK cement plant following minimum Air Pollution Control Measures (APCM) should be provided.

Sr. No.	Section	Type of APCM
1	Crushing and Raw Materials Proportioning	Bag filter (with proper metallic casing, adequate stack height and stack monitoring requirement facility).
2	Raw Mill	Twin cyclone and Bag filter (with proper metallic casing, adequate stack height and stack monitoring requirement facility).
3	Homogenising Silo	Bag filter (with proper metallic casing, adequate stack height and stack monitoring requirement facility).
4	Noduliser	Bag filter (with proper metallic casing, adequate stack height & stack monitoring requirement facility).
5	Vertical Shaft Kiln	Cyclone (with adequate stack height and stack monitoring requirement facility).
6	Clinker Crusher and Discharge tube	Bag filter (with proper metallic casing, adequate stack height and stack monitoring requirement facility).
7	Cement Mill	Bag filter (with proper metallic casing, adequate stack height and stack monitoring requirement facility).
8	Packing house	Bag filter (with proper metallic casing, adequate stack height and stack monitoring requirement facility).

The above air pollution control devices are indicative in nature. The Cement Plant shall explore the possibilities of putting up other latest devices to achieve better results so as to comply with the air pollution control norms prescribed by the GPCB.

6. The applicant shall carry out third party monitoring with respect to the design, and efficacy of the proposed air pollution control equipments through the credible institutes like NPC, LDCE and other institutes of such repute.
7. Adequate stack height as per GPCB norms shall be provided to the D.G. sets.
8. The fugitive emission in the work zone environment and ambient air environment shall be monitored. The emission shall conform to the standards prescribed by the concerned authorities including the Director of Industrial Safety and Hygiene as well as the Gujarat Pollution Control Board from time to time. Following indicative guidelines shall be followed to reduce the fugitive emission.
 - a) Enclosure shall be provided at all loading and unloading operations.
 - b) Water shall be sprayed on all raw materials stock pile periodically to retain some moisture in top layer except wet gypsum to reduce the fugitive emission.
 - c) All transfer points shall be fully enclosed.
 - d) Accumulated dust on the ground and other surfaces shall be removed / swept regularly and water the area after sweeping.
 - e) Internal road shall be either paved properly to reduce the fugitive emission during vehicular movement.
 - f) Air borne dust shall be controlled with water sprinklers at suitable interval in the plant.

A.3 SOLID WASTE:

9. Used oil / waste oil shall be sold only to the registered recycler registered under Hazardous waste (M & H) Rules 1989.

A.4 SAFETY:

10. Personal Protective Equipments shall be provided to workers and its usage shall be ensured and supervised.
11. First Aid Box shall be made readily available in the unit.
12. Occupational health surveillance of the workers shall be done and its records shall be maintained. Pre-employment and periodical medical examination for all the workers shall be undertaken on regular basis as per Factories Act & Rules.

A.5 NOISE:

13. The overall noise level in and around the plant area shall be kept well within the standards by providing noise control measures including engineering control like acoustic insulation, hoods, silencers, enclosures etc. on all source of noise generation. The ambient noise level shall conform to the standards prescribed under Environment (Protection) Act & Rules, 1986 amended from time to time.
14. Noise levels for workers shall be as per the Factories Act & Rules.

A.6 WASTE MINIMISATION:

15. The company shall undertake following various waste minimization measures including :
 - a) Metering and control of quantities of active ingredients to minimize waste.
 - b) Reuse of by-products from the process as raw materials or raw materials substitutes in other processes.
 - c) Use of automated and enclosed filling to minimize spillage.
 - d) Venting equipment through vapour recovery system.
 - e) Use of close feed system into batch reactors.

A.7 GREEN BELT AND OTHER PLANTATION:

16. The unit shall develop green belt having 6.0m width all along factory periphery consisting of at least three rows of trees of local species.
17. The unit shall take up the greenbelt development in nearby schools, gram panchayat areas and any other open areas in consultation with the local bodies / GPCB and plant 1000 trees in phased manner in five years and shall maintain them till they grow up.

B. GENERAL CONDITIONS:

18. The applicant shall obtain raw materials like lime and other minerals from the authorized mine sites / quarries having valid Consolidated Consent & Authorization of the Gujarat Pollution Control Board (GPCB).
19. The unit shall adopt appropriate rain water harvesting system for harvesting the rainwater from roof tops and storm water drains to recharge the ground water.
20. At no time, the emissions shall exceed the prescribed limits. In the event of failure of any pollution control system adopted by the unit, the unit shall be immediately put out of operation and shall not be restarted until the desired efficiency has been achieved.
21. The project management shall also comply with all the environment protection measures, risk mitigation measures and safeguards recommended in the EIA / EMP report as well as other proposals made by them.
22. The applicant shall also comply with any additional condition that may be imposed by the SEAC or the SEIAA or any other competent authority for the purpose of the environmental protection and management.
23. No further expansion or modifications in the plant shall be carried out without prior approval of the MoEF/ SEIAA, as the case may be. In case of deviations or alterations in the project proposal from those submitted to MoEF/ SEIAA/ SEAC for clearance, a fresh reference shall be made to the SEIAA/ SEAC to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.
24. The project authorities shall earmark adequate funds to implement the conditions stipulated by SEIAA as well as GPCB along with the implementation schedule for all the conditions stipulated herein. The funds so provided shall not be diverted for any other purpose.
25. The applicant shall inform the public that the project has been accorded environmental clearance by the SEIAA and that the copies of the clearance letter are available with the GPCB and may also be seen at the Website of SEIAA/ SEAC/ GPCB. This shall be advertised within seven days from the date of the

clearance letter, in at least two local newspapers that are widely circulated in the region one of which shall be in the Gujarati language and the other in English. A copy each of the same shall be forwarded to the concerned Regional Office of the Ministry.

26. It shall be mandatory for the project management to submit half-yearly compliance report in respect of the stipulated prior environmental clearance terms and conditions in hard and soft copies to the regulatory authority concerned, on 1st June and 1st December of each calendar year.
27. The project authorities shall also adhere to the stipulations made by the Gujarat Pollution Control Board.
28. The project authorities shall inform the GPCB, Regional Office of MoEF and SEIAA about the date of financial closure and final approval of the project by the concerned authorities and the date of start of the project.
29. The SEIAA may revoke or suspend the clearance, if implementation of any of the above conditions is not found satisfactory.
30. The company in a time bound manner shall implement these conditions. The above conditions will be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act 1986, Hazardous Wastes (Management and Handling) Rules, 2003 and the Public Liability Insurance Act, 1991 along with their amendments and rules.
31. This Environmental Clearance is valid for five years from the date of issue.

With regards,
Yours sincerely,

(SANJIV TYAGI)
Member Secretary,
State Level Environment Impact Assessment Authority
Gujarat
