**No. SEIAA/GUJ/EC/5(f)/ 2008**

**Date:**

**Time Limit**

**To,**  
**M/s. S. M. Dyechem Industries,**  
**Plot No. C-1/240/3,**  
**Phase-II,**  
**GIDC-Vatva,**  
**Ahmedabad- 382445.**

**Sub: Environment Clearance for expansion in the existing unit at Plot No. C-1/240/3, Phase-II, GIDC-Vatva, Ahmedabad- 382445 by M/s. S. M. Dyechem Industries ..... expansion in Category 5(f) of Schedule annexed with EIA Notification dated 14/9/2006.**

Dear Sir,

This has reference to your application made along with Application Form 1, EIA/ EMP and feasibility report and submitted to MoEF, seeking Environmental Clearance under Environment Impact Assessment Notification, 2006. Later, SEAC had received this application from the Ministry of Environment & Forest, Government of India, after formation of the State Level Environment Impact Assessment Authority (SEIAA), Gujarat and the State Level Expert Appraisal Committee (SEAC), Gujarat.

It is noted that the proposal is for Environmental Clearance for manufacturing chemicals by **M/s. S. M. Dyechem Industries, Plot No. C-1/240/3, Phase-II, GIDC-Vatva, Ahmedabad- 382445**. The unit is located in notified GIDC area. Total plot area of the company is **705 sq.m**. Expansion will be within existing land. Total cost of the project **Rs.37 Lacs**. The unit has applied for manufacturing following chemicals:

<b>Sr. No.</b>	<b>Name of the product</b>	<b>Quantity per Month</b>
1.	Reactive Turquoise Blue H5G (Blue-25)	Total Quantity-25

M/M Month

3.	Reactive Turquoise Blue G (Blue-21)	(Mix of Products)
4.	Direct Turquoise Blue FBL (Blue-199)	

The project activity is covered in 5 (f) and is of 'B' Category. Since the proposed project is in notified industrial area, it does not need Public Consultation as per Para 7(i) III. Stage (3) (b) – Public Consultation of EIA Notification, 2006.

The SEAC, Gujarat had recommended to the SEIAA, Gujarat, to grant the Environment Clearance to this project for the above-mentioned products. The proposal was considered by SEIAA, Gujarat in its meeting held on 02.06.2008 at Gandhinagar. Since the EIA/ EMP Report was found to be adequate and complete and the public consultation is not required for the project, the SEIAA hereby accords Environmental Clearance to above project under the provisions of EIA Notification dated 14<sup>th</sup> September, 2006 subject to the compliance of the following Specific and General conditions.:

**A. SPECIFIC CONDITIONS:**

**A.1 WATER:**

1. No ground water shall be used for the project. Water consumption for the project shall be 12600 Liter/day which shall be piped water to be supplied by GIDC. The water meter shall be installed and maintained regularly.
2. Wastewater generation from the project shall not exceed 11700 Liter/day. The treated effluent shall be conveyed to Common Effluent Treatment Plant at Vatva through underground pipeline. Till the CETP, Vatva, meets with the GPCB norms, the unit shall provide and operate efficiently the Effluent Treatment Plant (ETP) comprising of the primary, secondary and tertiary treatment facilities to achieve the GPCB norms. Once the CETP-Vatva, meets with the GPCB norms, at its outlet, the unit shall treat its effluent up to the CETP inlet norms.
3. Unit shall provide metering facility at the outlet of the ETP and maintain the record of the same.
4. The unit shall become member of the common waste exchange/waste treatment/ recovery facility, if any, coming up in the region for the disposal / reuse of its spent acid. The spent acid shall be disposed / sold to the actual re-users, who are having valid authorization of the Gujarat Pollution Control Board for the said purpose.

## **A.2 AIR:**

5. The L.D.O. / F.O. / PNG shall be used as a fuel in Hot Air Generator and in boiler (as per IBR) and adequate stack height as per GPCB norms shall be provided. Unit shall explore use of Natural Gas as fuel.
6. Process emissions like HCl, Cl<sub>2</sub>, SO<sub>2</sub> shall be scrubbed in to the scrubbers proposed as the air pollution control measures. These APCM shall be operated efficiently and effectively to achieve the norms prescribed by the GPCB at stack outlet.
7. Air pollution control measures like bag filters shall be provided at pulverizer to control emission of particulate matter. Pulverizing activities shall be carried out in the confine area and controlled manner and all necessary steps shall be taken to reduce the fugitive emission from the unit.
8. The unit shall outsource spray drying activity from the other units which has valid consent from the GPCB.
9. The fugitive emission in the work zone environment shall be monitored regularly through the third party. The emission shall strictly conform to the standards prescribed by the concerned authorities from time to time.
10. All the vessels used in the manufacturing process shall be close to reduce the fugitive emission.
11. The gaseous emission and the particulate matter from the process units shall conform to the standard prescribed by the GPCB. At no time, the emission shall go beyond the stipulated standards. In the event of failure of pollution control system(s) adopted by the unit, the respective manufacturing unit shall not be started until the control measures are made effective to achieve the prescribed standards.
12. All the storage tanks of flammable / toxic chemicals shall be under negative pressure to avoid any exposure or leakage. Breathers, N<sub>2</sub> Blanketing and condensers shall be provided to the storage tanks. Vents of the oleum storage tank shall be dipped in to the sulfuric acid storage tank to avoid the fugitive emission.
13. Regular monitoring of ambient air quality shall be carried out for the prescribed parameters. The locations of the ambient air monitoring stations shall be set up in the downward direction as well as where maximum ground level concentrations are anticipated and shall be in consultation with GPCB.

## **A.3 SOLID WASTE:**

14. All types of the wastes shall be stored separately in the hazardous waste storage area facility to be provided in the premises.
15. ETP sludge / shall be dried in sludge drying bed. It shall be packed and stored in hazardous waste storage area facility with pucca bottom and adequate leachate collection

- facility. The leachate shall be properly treated in the ETP before discharged in to the CETP- Vatva, and shall meet with the GPCB norms till CETP meets with the GPCB norms.
16. Unit shall disposed its ETP waste at TSDF-Vatva and obtain prior permission of TSDF operator from time to time.
  17. Used oil / waste oil shall be sold to only to the registered recycler.
  18. Discarded containers / liners shall be sold only to the registered recycler after decontamination.

#### **A.4 SAFETY:**

19. All necessary precautionary measures shall be taken to avoid any kind of accident during storage and handling of HCl, Phosphoric acid, Chlorosulfonic acid in addition to other chemicals.
20. All the hazardous raw materials shall be stored in optimum quantity. All necessary permissions in this regard shall be obtained from competent authorities before commencing the project.
21. Personal Protective Equipments shall be provided to workers and its usage shall be ensured and supervised.
22. First Aid Box and required Antidotes for the chemicals used in the unit shall be made readily available in adequate quantity At all the times, Necessary tie up with the nearby doctor qualified for occupational health shall be made to ensure that the medical treatment is given within the shortest possible time in case of any adverse condition.
23. Training shall be imparted to all the workers on safety and health aspects of chemicals handling.
24. Occupational health surveillance of the workers shall be done and its records shall be maintained. Pre-employment and periodical medical examination for all the workers shall be undertaken on regular basis as per Factories Act & Rules.
25. Handling and charging of the chemicals shall be done in such a manner that minimal human exposure occurs.
26. The company shall implement all preventive and mitigation measures suggested in the Risk Assessment Report.

#### **A.5 NOISE:**

27. The overall noise level in and around the plant area shall be kept well within the standards by providing noise control measures including engineering control like acoustic insulations, hoods, silencers, enclosures etc. on all source of noise generation. The ambient noise level shall conform to the standards prescribed under The Environment (Protection) Act, 1986 & Rules.

#### **A.6 CLEANER PRODUCTION AND WASTE MINIMISATION:**

28. The company shall undertake following waste minimization measures:

- a) Metering and control of quantities of active ingredients to minimize waste.
- b) Use of automated and enclosed filling to minimize spillage.
- c) Reuse of by-products from the process as raw materials or raw materials substitutes in other processes.
- d) Venting equipment through vapour recovery system.
- e) Use of high pressure hoses for equipment cleaning to reduce wastewater generation.
- f) Use of close feed system into batch reactors.

#### **A.7 GREEN BELT AND OTHER PLANTATION:**

29. Unit shall develop green belt within premises as per their commitments given to the SEAC. Further, if the adequate land is not available within the premises, the unit shall take up adequate plantation at suitable open land on road sides and other open areas within the GIDC or in nearby locality or schools and submit an action plan of plantation for next three years to GPCB.

30. The Vatva Industries Association shall endeavor to generate a corpus fund for this purpose and take up massive greenbelt development activities within the estate and on the periphery of the estate for which the unit shall make appropriate contribution in consultation with the GPCB.

#### **B. GENERAL CONDITIONS:**

31. The applicant shall set up an environment Cell consisting of atleast one person trained in Environment Management and the qualification of the person shall be either Post Graduation in Chemistry/ Environment or Engg. in Environment/ Civil/ Chemical. The Cell shall look after Environment, health and Safety. Any owner/ occupier who himself/ herself has the qualification and undertakes to carry out above work himself/ herself may not employ the above persons.

32. The unit shall go in for segregation of concentrated stream and treat the low concentration stream and evaporate the concentrated stream and recover Salts through Spray drying.

33. At no time, the emissions shall exceed the prescribed limits. In the event of failure of any pollution control system adopted by the unit, the unit shall be immediately put out of operation and shall not be restarted until the desired efficiency has been achieved.

34. The company shall strictly follow all the recommendations mentioned in the Charter on Corporate Responsibility for Environment Protection (CREP) for Chlor Alkali plants.
35. The company shall undertake eco-developmental measures including community welfare program most useful in the project area for the overall improvement of the environment. The eco-development plan shall be submitted to GPCB within three months of receipt of this letter.
36. The project management shall also comply with all the environment protection measures, risk mitigation measures and safeguards recommended in the EIA / EMP report as well as other proposals made by them.
37. The company shall develop rain water harvesting structures to harvest the run off water for recharge of ground water. Also harvesting of surface as well as rainwater from the rooftops of the building proposed in the project shall be undertaken and the same shall be used for the various activities of the projects to conserve fresh water.
38. The applicant shall also comply with any additional condition that may be imposed by the SEAC or the SEIAA or any other competent authority for the purpose of the environmental protection and management.
39. No further expansion or modifications in the plant shall be carried out without prior approval of the MoEF/ SEIAA, as the case may be. In case of deviations or alterations in the project proposal from those submitted to MoEF/ SEIAA/ SEAC for clearance, a fresh reference shall be made to the SEIAA/ SEAC to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.
40. The project authorities shall earmark adequate funds to implement the conditions stipulated by SEIAA as well as GPCB along with the implementation schedule for all the conditions stipulated herein. The funds so provided shall not be diverted for any other purpose.
41. The applicant shall inform the public that the project has been accorded environmental clearance by the SEIAA and that the copies of the clearance letter are available with the GPCB and may also be seen at the Website of SEIAA/ SEAC/ GPCB. This shall be advertised within seven days from the date of the clearance letter, in at least two local newspapers that are widely circulated in the region one of which shall be in the Gujarati language and the other in English. A copy each of the same shall be forwarded to the concerned Regional Office of the Ministry.
42. It shall be mandatory for the project management to submit half-yearly compliance report in respect of the stipulated prior environmental clearance terms and conditions in hard and

soft copies to the regulatory authority concerned, on 1st June and 1st December of each calendar year.

43. The project authorities shall also adhere to the stipulations made by the Gujarat Pollution Control Board.
44. The project authorities shall inform the GPCB, Regional Office of MoEF and SEIAA about the date of financial closure and final approval of the project by the concerned authorities and the date of start of the project.
45. The SEIAA may revoke or suspend the clearance, if implementation of any of the above conditions is not found satisfactory.
46. The company in a time bound manner shall implement these conditions. The SEIAA reserves the right to stipulate additional conditions, if the same is found necessary. The above conditions will be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act 1986, Hazardous Wastes (Management and Handling) Rules, 2003 and the Public Liability Insurance Act, 1991 along with their amendments and rules.
47. The applicant will install Hot Air Generator with a noise rating not exceeding 90 dB.
48. The applicant shall earmark 0.1 % of their turnover for eco-development works, the nature of which will be specified by the authority later on.
49. The applicant shall to earmark funds for plantation of trees within factory premises or in nearby municipal/ AUDA / *Gram Panchayat* area within Ahmedabad District. The applicant shall plant 15,000 trees over a period of 5 years and maintain them for 10 years ensuring a survival rate of 80%.
50. This Environmental Clearance is valid for five years from the date of issue.

With regards,  
Yours sincerely,

**(SANJIV TYAGI)**  
**Member Secretary,**  
**State Level Environment Impact Assessment Authority**  
**Gujarat**
